

Nationwide[®]
is on your side

You may see a credit to your OCFA Plan account.

The Orange County Fire Authority is pleased to announce that participants who had an account balance on December 31, 2015 and December 12, 2016 received a credit on December 13. If you received the credit, you will see a “unit adjustment” in this statement and an “adjustment” on your online account.

Investing involves market risk, including possible loss of principal. No investment strategy — including asset allocation, diversification or dollar-cost averaging — can guarantee a profit or avoid loss. Actual results will vary depending on your investment and market experience.

My Interactive Retirement Planner is a service mark of Nationwide Mutual Insurance Company.
